

Roman Shade

*Roman
Shade*

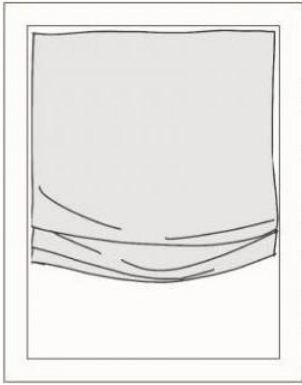

One cord control, the curtain face elegantly folds like book pages, capturing every inch of light. High-density jacquard cashmere fabric weaves a space of light and shadow that allows light in but obscures the view. Right-angle folding lines perfectly adapt to various window types. The fabric feels like soft clouds, and is anti-static and dust-resistant. Using the three-dimensional philosophy of folding, it creates a comfortable, pleasant, and lifestyle-rich space.

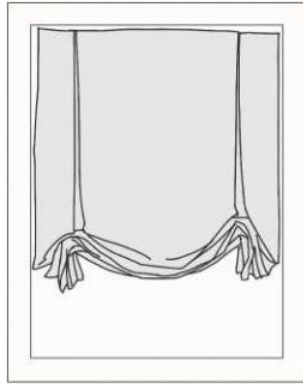

For more customization details, feel free to consult with our curtain stylist at info@pacificlightshades.com
